## INTRODUCTION

Cosmology is the science of the Universe as a whole; a treatise on the structure and parts of the system of creation. The title COSMOLOGY NEWSLINK, was formulated from the need to fit together inter-related subjects which may or may not have bearings on each other and perhaps leading to the answers or conclusions of some of them - if not all of earth's mysteries in which case this magazine has accomplished its function. Most of our title was suggested by Mr. Patrick Dineen, of Co. Kerry Ireland, We added the LINK.

FOR OCTOBER-NOVEMBER-  
DECEMBER 1978  
CNK Issue 19.

Dear Readers, Firstly, sorry for long gaps between magazines, this was due to publication of the book seen on the back page. Well, it's all happening. UFOs Galore, Try as we might, the U.F.O still fills up most of CNK, and so, as we can't win, THIS edition will be a 1977-8 UFO filled special. There were enough sightings these two years to fill 200 pages. As CNKs format is so tiny, some 1978 recent sightings will be covered in issue 20. While on that subject of issue 20-it does seem a long time to reach that number-6 years actually-that's when a magazine IS non-scheduled. THANKS to everyone who are sending in clippings of odd phenomena, UFOs etc, without you-issues like this would not exist. However, please, no more of anything after 1979, since CNK will be closing up and using up all existing stocks of data.

England sure went crazy in 1977. The mass media giving their all with the Daily Express leading the rest with a massive front page headlines on UFOs, something which I have never seen before, and probably unlikely to see again for a long time. All we need now, is to see the rest follow suit everywhere, ie, governments etc., and do the same for the public by issuing an official statement regarding UFOs for the bemused public, who STILL, after all these years, do not know what is going on.

## CLOSE-ENCOUNTERS OF THE THIRD KIND

All that would then remain would be a contact just like in the film of the same name, that would really close-the enigma, the torment the UFO phenomenon has thrust on many people, whose lives at times it has shattered. Then this magazine, UFO groups would be as extinct as plane and train spotters are today. But CNK would have done its job, which it set out to do in 1972-to find answers to all earth's mysteries. Then we could pack-up gladly and become part of earth's history like so many other good researchers and magazines out there. Then we would KNOW Where they come from, What their purpose is, How they fly their machines- man's dream.

Future issues of CNK will be taking a look at the Warminster, UFO kidnaps, and Crashed UFO etc., cases. Any data on the latter would be welcomed. EDITOR

NEVER HAS THE SKY been so full of weird objects. 1977 was the most extreme in my history of UFOLOGY. There have been 'flaps' before, but I had not seen it on this magnitude. CNK reported many sightings for 1977 yet not the photos that went with some of them. In this issue we have included items missed in the last issue, at the expense of repeating some 1977 sightings. Also is the continuing sightings for 1978 also, which proves UFOs are still being sighted for 1978. My thanks to Karl L. Veit of Germany for the UFO Nachrichten account of the Iranian account.

NIEHALS hat man den Himmel so voll UFOs gesehen, den fremden objekte. 1977 war die beste Jahr für die UFOs hier in U.K. Unsere voll Bericht den 1977 sichtenen war in nummer 18, denn ohne fotos, jetzt hier. Auch kleine andere sachen, nicht in nummer 18 gesehen. 1978 ist noch eine Jahr für UFO, mit viele sichtenen durch unsere Land. Es gibt nicht so viel wie für 1977 aber genug. Vielen Dank an Karl L. Veit für seine UFO NACHRICHTEN und über Teheran.

ALDRIG har den himmel så upptagen av UFO och öde objekte lika 1977. 1977 var det bäst år för UFO.

CNK har i 1977 många objekte rapportera i England och andra ställe. MEN nu i 1978 har vi mer observation av UFO, och här i CNK vi tryck, med någon fotos.

Mike Milton turned in the following report in January 1977:

"I was walking along through the New Estate near Nuffield Road Cambridge at about 2pm Wednesday 12th Jan, 1977 when on looking up into the grey cloudy sky, I saw an object which intantly I took to be a half moon, but then I looked a second time almost immediately and it clicked, that I have never seen a half moon quite like this. It was like a half-moon shape, white in appearance and in front of an overcast sky." Mr. Milton did not conclude this report, since he had gone back to Cambridge on the 12th Jan in the night, he then saw nothing in the sky later.

JANUARY (?) 1977 via Bob Blomville

Source unknown but by JOHN BRIGHT (newspaper item)

CNK: We have had to edit this due to length.

PRESSURE from several sources has finally persuaded me to break silence over an "experience" I had a while ago involving certain "unearthly sights" and "humming sounds".

The recent spate of sightings of unidentified flying objects has in no way encouraged me to make the following weird but true account up. I consider myself to be a rational human being, and that there is an explanation for most so-called "inexplicable" phenomena. Besides I had a witness, and my wife and I---feel we must reveal all. We were traveling in an easterly direction near Emley Moor. It was a clear evening; night was falling, the air was still. <sup>To say</sup> We had both been to a "party" and were both "paralytic" would be a gross exaggeration. It happened. My attention was distracted by a perfectly vertical row of red, circular objects, staring unblinkingly down upon me from positions between one hundred and six hundred feet in the sky. I confess I was terrified. They were stationary at the time, and a slight hum could be discerned, coming from their general direction, upon the night air. I stumbled out of my vehicle on to the grass verge, followed by my wife. My wife then looked out in a north-westerly direction across Huddersfield, and noticed a similar set of red glowing objects, piled one atop the other, as it were, near Pole Moor. Then I happened to look southwards, and, three or four miles away, I saw yet another set of lights, pulsating mysteriously in the gathering gloom. These lights, we estimated, hung above the horizon near Holme Moss. We concluded that all 3 'objects' were somehow communicating, and that they were waiting for some extraterrestrial Power to set them in motion, perhaps to destroy the world as we know it. However nothing happened. We waited for several hours indeed, until daybreak, having been struck by a strange, dreamlike tiredness of mind and body. As dawn rose, we noticed that the lights faded and disappeared. Naturally we plan to file reports to the Aetherius Society and to the British UFO Research Association.

\*FOOTNOTE BY CNK. This report somehow was ALL squeezed in here, so no editing was actually done as stated above, except on a few odd words--the story is complete. What worries me is that the objects faded JUST LIKE STARS would do--in the morning sunshine--were they stars, or UFOs ???

WAS THIS BOY BURNED BY A FLYING SAUCER ? from TERRY GREENWOOD: Stockholm--a press report of unknown but recent date: (newspaper not known)

REPORTS of two mysterious balls of light which appeared in the sky over Sweden are baffling the authorities. The riddle began with a report from Finnish schoolboy Eero Lammi who claimed he had been knocked down by a "beam of light". He was on his way home to Uleaborg, on the Finnish side of the Swedish frontier, when he saw a ball of light move across the border from Sweden and appear to land in a heathy field.

"I went to look at it," he said, "but suddenly, a ray of light seemed to beam out from it and I felt a searing pain in my chest and everything went black." Even his parents thought it was a prank until a doctor found the boy had slight burns on his chest...and back.

At the Swedish Military High Command, which investigates all reports of UFO sightings, Colonel Bertil Eriksson said: "We do not know how it happened. We have been unable to trace anybody else in the area who saw anything unusual on that day." The second report came from a university student, bird watching, near Tiveden, 400 miles south of the boarder. His description tallied exactly with the measurements given by the Finnish youth, Mr. Sture Wickerts, UFO expert and research chief at the headquarters of the Swedish Defence Intelligence Organisation said: "The student's name is not being released at the moment, he is a technical student and was very precise with his description. He was using binoculars and saw a round object with pulsating lights lift into the air.

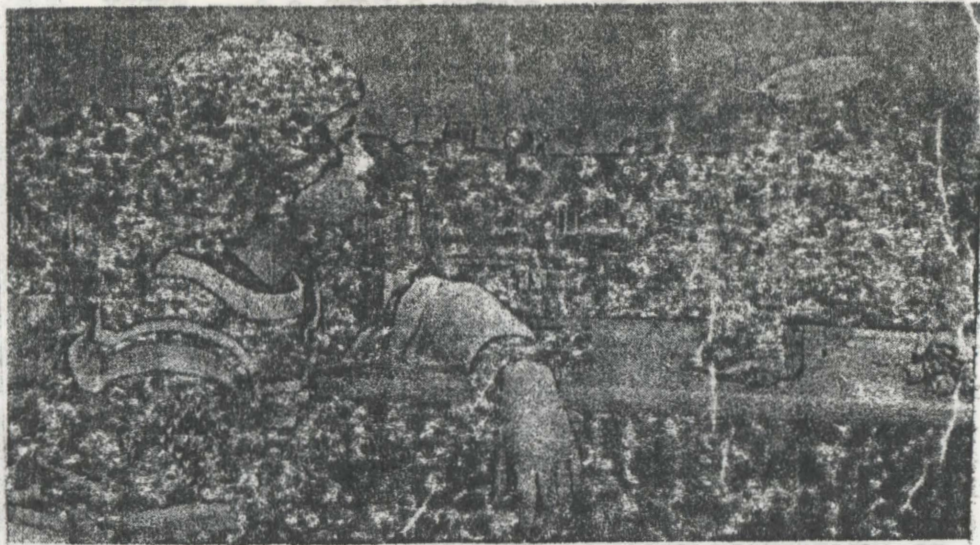

He was able to detect that the object was coloured black and grey and he heard a strong throbbing noise which lasted about ten seconds. He even estimated that the frequency of the noise was about three hertz." He added later: "All I can say is that I do not believe for one moment, that this young man would make up such a story."

On the next page we see young Darren Jones' sighting reconstructed by this local newspaper photographer Keith Stretten--It was described by the British UFO Research Association (BUFORA) as 'unique' and the best for than a year...little did BUFORA realise just how things were about to hot up in the rest of the month's to follow. This full story was covered in issue 17 of CNK.

MARCH 1977:

Duncan Cooper of Lovecote Lodge, Henham, Bishop's Stortford sent CNK this report. The envelope was dated 30 1978--sorry about that--a 1978 has crept in here, however, Duncan is only 6 and this is his OWN words:

"On wednesday me and susan and Ian all see three flying saucers and the one on the front is the last one, whas was the funnys flying saucers of them all bye bye.

Here is the sketch that came with the letter. (CNK has not yet had time to go over there and check this one out):

ANY EXPLANATION FOR MYSTERY DISC?

PHOTOGRAPHS of a mystery object flying over St. Peter Port have been taken by a person who asks: "Can someone give me a logical answer for them?" The bright circular disos (above) CNK NOTE; picture too bad for reproduction here, was seen at night by Mr. John Shaw, when he went into his garden. "I dived back inside and grabbed my camera," he said. Mr. Shaw, of 4, St. George's Esplanade, managed to take three photographs of the object, but as he turned to call his wife, the phenomenon disappeared. He estimates that the UFO--~~un~~identified flying object--was visible for about 10 minutes. To try to clear up the riddle, Mr. Shaw has sent one of the pictures to Esther Rantzen of the BBC TV's That's Life programme. He also wonders whether any Evening Press readers can shed light on the mystery pictures.

CNK thanks whoever sent in this clipping.

**CORPORAL** Armando Valdes walked toward light from UFO and suddenly vanished. He reappeared in 15 minutes with 5-day growth of beard and his calendar watch advanced 5 days.

## SOLDIER

CAPTURED BY UFO

via Carol Halford Watkins

From the National Enquirer USA: In one of the strangest UFO sightings on record, a Chilian soldier who disappered in an eerie violet glow, apparently lost five days from his life--in 15 minut. The soldier, a corporal, went to investigate a powerful, violet, oval-shaped light that suddenly appeared one night hovering near his unit's outpost. All the members of the unit saw it and stood startled, in combat readiness.

When the corporal returned, 15 minutes later, his mind was a blank, his calendar watch had advanced by five days--and he had a sudden, five day growth of beard on his face!

"All I remember is walking away from my soldiers towards the light--then I lost my mind." said Cor-

poral Armando Valdes. "They say I disappeared like magic. All I can say is something called me. It was an internal communication between the light and myself. "When I returned, the date on my watch had gone forward five days in 15 minutes.

"They tell me I looked like I hadn't shaved for five days."

"He seemed out of his mind and did not recognize anybody." Cpl. Valdes then fell unconscious. While the men were attending him, the UFO disappeared, sometime between 6:30 and 6:45 a.m. When Valdes recovered, he mounted a horse and galloped to the tiny village of Putre,  $1\frac{1}{2}$  miles away, in order to tell his story to schoolteacher Pedro Arandeda, formerly a lecturer at the University of Chile. Arandeda told the ENQUIRER: "The corporal felt I was the only one who would be able to explain the mystery. I was surprised at his appearance, because he had a beard of around six or seven days' growth and I knew the soldiers had to shave every day. I took my camera and tape recorder to the scene. All the men there told the same story.

"I believe because I was in the area two or three hours after it happened and they all said the same thing. They were all shocked--almost in a state of panic."

Colonel Rene Escuriza, assistant to President Pinochet, told the ENQUIRER: "These men are now confined to barracks and undergoing a series of medical and psychiatric tests while we check their stories.

"The doctors have advised that we wait until the tests are complete before putting the corporal under hypnosis to see if we can find out what happened while he was missing for 15 minutes. It is a very strange story."

Reporter Luis Maturana of the Daily newspaper La Estrella in the nearby city of Arica told us: "I interviewed the soldiers 20 days after the sighting, and spent at least two hours with the corporal. My impression is that he is a very normal man. However, his nerves are under great pressure and he says he still sees the light (from the UFO)!"

"He headed out into the darkness that night to approach the UFO. The men went after him but he seemed to have disappeared. Then he was suddenly behind them, in the open area near the campfire. They had not heard him

moving, yet they insist that because of rocks on the ground they always make noise when they walk."

Juan Faunder of Group Invest Espacial, a Chilean UFO investigative organization, said: "There have been many other UFO sightings in Chile but this was the most spectacular because of the change in the corporal's appearance.

"This sighting encourages me for the first time to believe that UFOs are visitors from outer space. The fact that the corporal's watch went five days forward suggests that he may have been taken aboard the craft--and that the craft has a faster time zone. It's a very important incident."

The military government of Chile told The ENQUIRER that it takes a serious view of the incident and on orders from the very top, further interviews with the soldiers have been prohibited. But the Enquirer obtained a permit to travel to the area where the UFO was sighted and to speak to the many witnesses connected with the incredible incident. It started at about 3:50 am April 25 1977 near a secret army post at Pampa Lluscoma, close to the Bolivian border, where a patrol was on duty. The men were stunned to see, just 1,600 ft. away, the oval object, some 230 ft. in circumference, and bathing a wide area in bright violet light. At each end of the object were two small revolving red discs. It was a moonless night. The men were terrified.

"Our corporal told us that we must believe in God and that nothing was going to happen to us," said soldier Raul Vasquez in a statement recorded on tape before the military ban was slapped on. "The object certainly didn't belong to anything on this planet," he declared. "The corporal went toward it and when he reappeared he was trembling and laughing with a different voice." He said a strange thing, according to Vasquez: "You don't know who we are or where we come from but we will be back soon!" Soldier Ivan Robles said: "The light illuminated the whole area. Our corporal disappeared for 15 minutes. He was well shaven when he went away but he came back looking as though he had not shaved for at least five days. A truth-detecting machine was used on the soldiers which was so reliable that its results have been used in legal proceedings or accepted as court evidence in 14 states. The evaluation was: "Valdes and his men are telling the truth. They believe what they are saying," said C.R. McQuiston, the developer of the device. "It appears there was something there."

Mrs. June Cadman thinks about the mystery objects as she fills in a UFO sighting form.

MAY 24th 1977

Mrs. June Cadman driving home down the M1 motorway at 3am saw white glowing Object following her car.

"It dropped down fast, lit up road and seemed to change shape," she said.

After stopping car saw 2nd object (see CNK 17 for full story)

MAY: Stewart Bennett reports seeing a dome shaped object with portholes and pulsating red lights underneath.

MAY 1977:

Darren Hawkes and David Gillet at 9.30 pm saw a "Mexican hat" gliding silently

across the sky. It had a dome and flashing light.

MAY 18th:

FOURTEEN schoolchildren see strange object in a field at Broad Haven, Wales, 200 yards from their playground. Their headmaster Ralph Llewellyn persuaded them to make drawings of the object seen. All drew similar UFO. He added: "I do not believe that children of this age could sustain a hoax of this nature."

SIGHTINGS FOR MAY 1977

It was one o'clock on a Saturday morning when a seven-foot giant wearing a silver suit blocked the window of Billy and Pauline Coomb's cottage. A glow hung around the figure, which had a head on the massive shoulders showing no discernable features-box shaped helmet framed a dark square area like a blank watch-face. The ministry of defence said in the SUN for May 18th 1977:

"The people who report these sightings are not nutcases. They are genuinely sincere people, genuinely concerned.

"We investigate every report on this assumption. We do not discount the possibility of intelligent life in outer space." CNK says: But the MOD did not state whether this life in space was HERE ON EARTH!

The RAF said in May 1977: "There have been a flood of these reports. The ground sightings do not, in time or place, fit in with our operations."

"Neither do the descriptions of spacemen fit with the protective clothes used by oil refineries in the area.

"We accept the possibility of life in outer space. But none of our radar units can explain these sightings." But a spokesman added later:

"We sometimes tow a target three and a half miles behind some aircraft. The target may appear to be dissociated from the towing aircraft." It could therefore seem like a flying saucer. CNK WILL COVER THIS REPORT AND ONES LIKE IT IN COMING ISSUES.

MYSTERY UFO OVER ESSEX: Newsmen Herald.

The Ministry of Defence was asked to investigate an astonishing U.F.O report submitted by Chelmsford police dog-handler Peter Frost. His sighting was over Arkesden village near Saffron Walden at 2.50 a.m.. His report shocked colleagues at Essex Police Headquarters who said a similar report was made a few hours later. In this case the object was cigar-shaped with its ends in a vertic position. See CNK 16 or the above newspaper.

**MYSTERY:** Martin's own picture.

## MY HAT....

HERE'S A SAUCER!!

Daily Mirror, Monday July 4th 1977:

YOUNG Martin Tominey wants the world to know that flying saucers really DO exist.

And if you won't take his word for it, he has pictures to persuade you!

Armed with his "evidence", 21-year-old Martin said last night:

"I have never believed in Space craft. But what else could it have been?"

Martin's conversion came on the road to the Wicked Lady pub at Wheathampstead, Herts. With Martin in his Mini car was his

pal Steve Bletch, 25. Steve said: "The thing was like a great Mexican hat-but didn't seem to take any firm shape."

Martin, of Sandridge Road, St. Albans, grabbed his brother's Polaroid camera from the back of the car. Both lads work at Polaroid's St. Albans factory. But they insist the photos are genuine. Mirror cameraman Alisdair Macdonald has his doubts, though. He said: "I reckon it could be a practical joke. Yet again the 'flying saucers' are fuzzy images-yet everything else is in focus."

BOURNMOUTH EHCO 21st July 1977:

SUSAN PASCALL (20) was driving in the Oakdale area with two friends last evening when they saw a bright orange light in the sky. "It was very bright and crescent-shaped said Susan, of Wren Crescent, Branksome.

"It was very bright and was very slowly moving and fairly low. Then it disappeared behind homes near the harbour," she said. Hurn Air Traffic Control said object could have been a flare dropped to test wind velocity. A Hercules aircraft had been flying over the area recently, dropping paracutists in the Studland area.

CNK says: See! Not ALL UFOs are UFOs, just a matter of careful elimination of NATURAL objects, (sometimes).

THE NATIONAL ENQUIRER (USA) said TOP SCIENTIST REVEALS 25 sightings of Intelligently controlled UFOs.

(To be seen in a later issue of CNK-via C.H. Watkins of Canada.)

AUGUST 26th-Via Ed. O'Hare in Harlow from HARLOW GAZETTE AND CITIZEN Essex:

HUAMINH WOKE HIM UP- WAS IT A UFO?

A LOUD humming noise brought Paul Richards out of a happy slumber early on Monday morning and greeted him with one of the strangest sights he had ever seen.

As he looked into the grey dawn sky from his home at Rushes Mead, Harlow, he saw a series of square lights headed by a long strip of light travelling slowly across the rooftops.

While the lights were visible the noise, which 23-year-old Paul likened to the drone of an electricity pylon, hummed on. But as the lights disappeared behind the roof of a nearby house, so the noise stopped too.

"It was about 4 am when I woke up and saw the lights. There were about 12 of them in a line and they were very bright, like stars, like ultra violet lights.

"I'm sure it wasn't a helicopter or a plane. In fact, I've never seen anything like it before; I have always read about UFOs and been mystified by them but now I believe in them," Paul told the Gazette-Citizen.

The experience shook Paul so much that he couldn't go back to sleep afterwards. "I woke my wife and told her but she just grunted and went back to sleep. It worried me so much that it kept me awake" he said. And now Paul firmly believes that what he saw was a UFO. He will definitely be keeping his eyes open in future for any more strange lights in the sky.

AUGUST 1st 1977: Southamton Echo

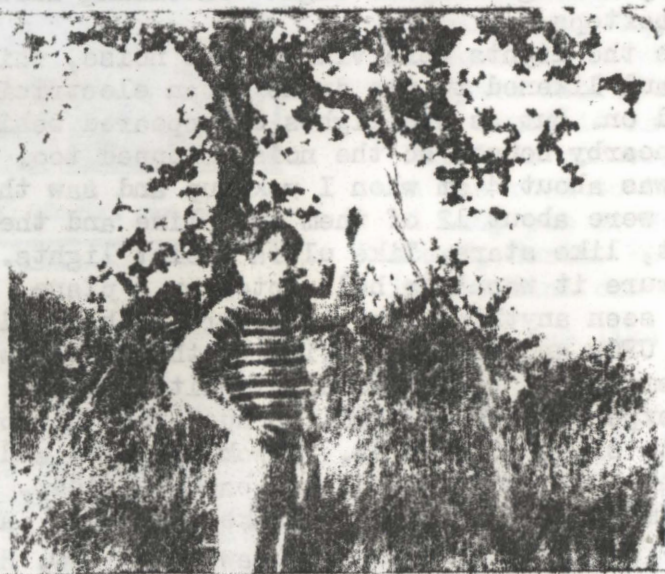

SOLENT UFO SHEDS STARS OVER IW.

A BEAULIEU woman who does not believe in flying saucers and her son are still puzzled over their sighting of a strange, flying object. Mrs Barbara West and Mark (13) saw what looked like a very bright star in the night sky, hovering over the Isle of Wight. Mark thought he could see something rotating on the surface of the object. "Suddenly something seemed to come away from it like a falling star. Then the same thing happened again. "About a ¼ hour later" said Mrs West, "another star left it and the bright light moved vertically, then levelled out like a plane and went off in the Southampton direction. We watched until it dimmed to nothing. She said it was 11.30 pm. "I am not a believer in UFOs, I am a practical person-but I do not know what it was and my son is as mystified as I am."

AUGUST 1st 1977: via Ed. O Hare Harlow. THE DAILY TELEGRAPH: DRIVERS SEE UFOs. FOUR portuguese motorists reported seeing UFOs hovering above a road near Estoril. They said their car engines cut out until the objects disappeared. An exhibition of photographs of suspected UFOs has just been held in Lisbon.-Reuter.

AUGUST 1977: DID DUNMOW BOY HAVE UFO sighting?

Below: Douglas Clayden stands pointing up at the spot where the sighting supposed to have taken place.

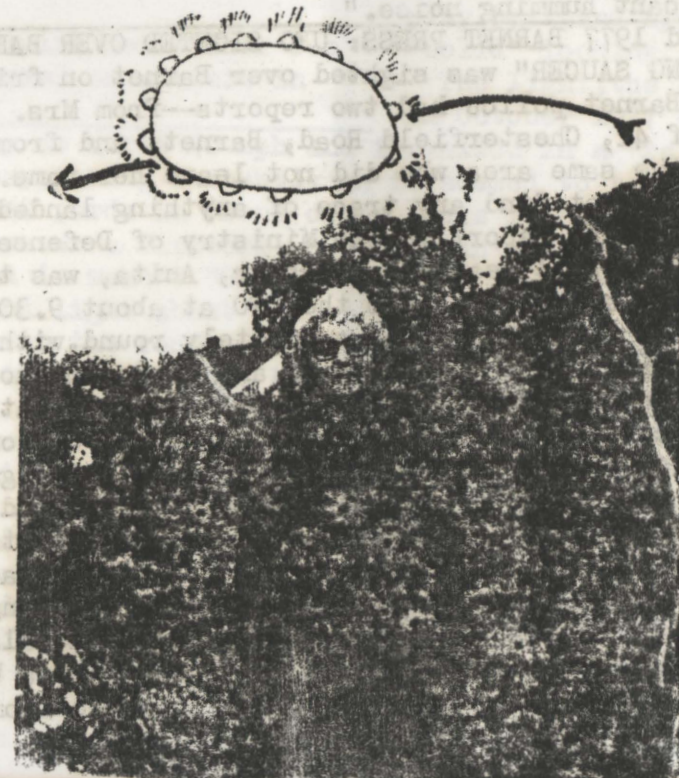

Douglas Clayden of 4 Lower Mill Fields, Dunmow, Essex still claims he saw a bright unidentified flying object hovering over a spot known to locals as Bluebell Wood- (no bluebells of course). Doug Said; "It came out of a cloud, made various manoeuvres over the trees, made a near landing then zoomed away" Doug told CNK last year. Although the site shown on our photo was checked out we found nothing unusual, and nobody else saw it. Yet Dunmow residents HAVE been seeing green lights. One was Sharon, 17, of Gatehouse Villas, while travelling inside a taxi, but Sharon is so disturbed over the event she only wished to forget the whole thing. Dunmow Police were involved with a similar sighting I discovered, but was unable to follow up and now the sightings by these people has slipped into disregard. -Editor. \*I hope Sharon doesn't mind me including this report-done, so to show that Dunmow does get sightings like anywhere else. To prove it:

DUNMOW WOMAN GETS A 'VISITOR' IN THE NIGHT

September 1977:

Mrs. Nora Watson stands in her front garden where UFO seen.

Mrs Watson's UFO encounter was published in issue 17, but the photograph used to illustrate the sighting was not a good one. We hope the one on page 17 is better this time. Mrs. Watson stated she was going to bed, and sipping a cup of boiled water, when out of her bedroom window she saw a huge wheel-like object in the sky, which she described like 'light bulbs all around the edge of it' (see sketch on page 17 superimposed above her as it appeared to her over her garden). On interviewing Mrs. Watson, we ascertained the thing was travelling 330-degrees north-west. On checking with the M.O.D the R.A.F. and the local airport at Stanstead, we all drew a blank. Nobody else saw it, and it was silent. Full details in issue 17 also.

September 1977 Kent: via DAILY EXPRESS. Newington. Alan Howard, 30, a commercial cleaner and his wife Dianne, 23 a medical secretary, were driving near their home when they saw a very bright light in the distance. It was 8.30 pm., a blustery, moonlit night.

Mr. Howard is colour blind. Mrs. Howard says the five lights were "numerous...red and green...it appeared very large and symmetrical in shape. I could hear a very significant humming noise."

SEPT 2nd 1977 BARNET PRESS: UFO SIGHTED OVER BARNET A "FLYING SAUCER" was sighted over Barnet on Friday night. Barnet police had two reports--from Mrs. Ann Stait of 42, Chesterfield Road, Barnet, and from someone in the same area who did not leave her name. The police did not find any trace of anything landed and made a routine report to the Ministry of Defence.

Mrs. Stait's 14-year-old daughter, Anita, was the first in the family to see the UFO at about 9.30pm. Her mother described it as completely round, with 5 white lights; flying quite high and making no noise. From their front garden Mrs. Stait and Anita watched the object as it sailed over Mays Lane and out of sight. They went to the back garden and saw it again. "Suddenly it stopped; all the lights went off and it hung there for two or three minutes," said Mrs. Stait. "Then the lights went on again and it doubled back the way it had come. It went down like a shooting star." Mark Lunn, a schoolboy next door, and he also saw it. The anonymous report to police was of a UFO "with 5 lights and suddenly a flame appeared from it."

across the sky at about 40 mph and travelled in a "rainbow" shape, disappearing instantly as it seemed to touch the grass some 140 yards in front of me. This I accept COULD have been a flare or a firework, but it didn't burn out when it landed, and it wasn't "on fire" as it flew across the sky."

"The second light about 8th or 9th of January 1978 came directly over the roof, across the sky in front of me. It was just like the first light but was much faster about 50 mph maybe more. It descended very little, until about eye-level, by this time it was almost exactly about the same place the first light had landed and vanished, except this light, just vanished in the air as I watched, about 300ft. up. Using the second hand on the watch, I tried to judge speed and distance against time, and I'm sure I must have been watching this second light for at least 10 seconds. The puzzle is, how, do, what can vanish in mid air!?"

## CNK Reader Has UFO SIGHT-

ING. OCTOBER 1977:

CNK reader Angela Kirk's own story of the UFO encounter:

"My bedroom window looked out across the runway of Mildenhall U.S.A.F base, when I lived there in 1977." She said in a letter to CNK then.

"I saw white lights on two occasions. It was between 12.45pm and 1.15 am, with dark moonless skies, but very clear and dry.

Both lights were perfectly round and about the size of a small child's play ball, and appeared "solid" looking.

The light, the first one, in October 1977 came across

a helicopter, coming from the direction of the sea. But as it came nearer, she saw it had two white lights on each end of it which were revolving. It was silent as it came over her. As it did so, says Angela of the account, the grass started swirling around.

As the aunt seems reluctant to talk any more about it this is the only part of a full story which could have proved most interesting indeed if it was gone into in depth. Therefore this is the only brief account we have. I hope that when Angie Kirk reads this, IN PRINT, she can persuade her Aunt to write down the full story and send it into us, and assure her, that in no way is she alone in this field, MANY others as she can see have seen UFOs, and therefore she is NOT open to ridicule-which I think she must be feeling at this point. CNK will always respect anonymity if she so wishes.-Editor.

OCTOBER 1977 DAILY MAIL: WELL WHAT WOULD YOU THINK IF YOU SAW TWO 7ft Humanoids ALL DRESSED TO KILL IN SILVER SUITS? By Ann Kent.

How would you feel," began Mr Randall Pugh to the Daily Mail, "if you were a Continental lorry driver who saw two humanoids, with aerials coming from their shoulders just outside Carmarthen?"

(This report will be seen in a future issue) However 7ft humanoids were seen in Wales which was covered by a recent issue of this magazine.

14th OCTOBER 1977: FLYING OBJECT PUZZLES SAM.Brighthouse  
Echo:

A STRANGE object seen in the sky has puzzled three people at Clifton. One of those people was former alderman, Mr. Sam Williams, of Highmoor Lane. It was also seen by his wife Peggy, and next door neighbour, Mrs. Elsie Teal. "Until now I have always been sceptical about things like flying saucers. Now I'm not so sure," said Mr. Williams. The object was white in colour and in shape looked almost like two soup plates, one placed upside down on top of the other. It was in full view for about a minute, just above house roof level and following a line almost above the M62 motorway.

"The flying saucer, if that what it was, moved quite slowly then suddenly disappeared," said Mr. Williams. "I was flabbergasted. It just seemed to evaporate into thin air." Mr. Williams also saw a "flying saucer" shaped object again on Wednesday afternoon. It, too, was like soup plates placed together and was travelling south along the line

of the motorway.

Brighthouse traffic warden Mr. Geoff Taylor believes he may know the answer to the "sightings". He suggests that they could be caused by the sun shining on the windows of a moving vehicle and being reflected off cloud to give an optical illusion.

Strange objects in the sky were also reported by other Calderdale people last Friday. One description tallied with that of Mr. Williams and another puzzled observer told of an orange, glowing wheel-shaped object moving at slow speed.

CNK SAYS: I don't buy the reflection suggestion. No way can reflections from glass be reflected thousands of feet onto cloud, for a start, it may be absorbed by the cloud texture itself. Although a heliograph can travel thousands of yards, miles etc., I still think in this case it would be impracticable to suggest these UFOs were reflections and taking on dish-shaped images. If it were, then why has it not occurred on a regular basis. We can only wait and SEE! During the 1977 flap, many newspapers were indulging in the UFO enigma, sparked off by The Film Close Encounters of the Third Kind. In this respect reader Bob Blomville (now Bob Bloomfield) sent in an interesting news clip which we shall examine next time, with some exciting UFO photos. Here then for NOVEMBER 1977 all this took place:

EARLESFIELD S.W. London. (source DAILY EXPRESS)

For 30 minutes residents watched a column of light reaching up an estimated 3,000ft. Local Police saw it too. Inspector Des. Condon (that rings a bell), described it as "a perfect pillar..I've never seen anything like it..It glowed with a bluish haze and stayed motionless."

CNK SAYS: Sounds like an aurorae borealis of some description! (?) These are normally seen at the poles of the Earth. SALISBURY, Wiltshire. PC Chis Bazire and WPC Vivienne White on a panda patrol saw "what appeared to be a flying saucer" 500-700ft over Salisbury Plain. It was, they said, "oblong with a domed top and flat bottom. It was travelling very slowly at first. Suddenly it shot off at tremendous speed leaving a vapour trail."

NEW YORK USA: November 1977.

NEW YORKERS, two policemen and two hospital workers spotted a huge orange saucer fly low over Staten Island and land at New Jersey at the weekend. The nurse said later: "We drove off the road-that's how scared we were",

OUR WEIRD UNIVERSE (The book) Advertised on the back of CNK this issue is the book produced by myself, and is now advertised in various magazines in our circles of friends etc. Please note, that this book has been in such demand, that I have completely sold out of any real copies on hand. A few are still in the binding -up stage, and we have none whatsoever for the public left. IF YOU HAVE SENT IN YOUR ORDER for this book, or still want a copy, don't worry, I will be having a small re-print I hope before Christmas this year, therefore, still pre-order it if you still want your copy. You may have to wait up to December for it however, or beyond, but make no mistake it will arrive safely in your hands—that is GUARANTEED. No more orders for Volume ONE should be sent after January 1979, as Volume 2 is going to be produced, and if you have ordered volume one, and we have sold out, then you may get volume two instead. If all goes well, both volume one AND two will be available together as a complete set in the new year for those who would still like a copy. SO SEND IN YOUR ORDERS NOW! THIS WILL ENSURE WE KNOW JUST HOW MANY TO PRINT. These books are produced singly, individually by hand, and are NOT mass produced—so get that order in fast to avoid disappointment. Don't fret that you are waiting MONTHS for it to arrive..we have NOT walked off with your money! I cannot do two jobs at once single handed—so please be patient. Thanks go to all those who have already received volume one, and who waited 6 months for theirs. Thanks for your trust in sending your advanced payments.

While on the subject of long waits. I regret, that if anyone writes into me from the USA, Mexico, and other places, including the UK, who do not receive an immediate answer, please either write again, we may have LOST your address, or any number of reasons. I beg for those who do write in to PLEASE PLEASE enclose a Stamped addressed envelope OR International Reply Coupons, since I cannot guarantee a reply if you don't! I know I owe letters to many of you, but as usual I have been tied down with so many other things, that I put priorities of importance FIRST. EXCHANGE magazines (editors) This rule does NOT apply to you. Thanking you all again. EDITOR

A BRAINWAVE FROM THE EDITOR!!

I am thinking of having an issue of CNK completely devoted to YOUR letters. Some have been written long ago and are interesting to other too. If readers feel this is a good idea, let me know.

OFFICIAL UFO AND CNK:

In issue 19, readers read of items reproduced from the American Magazine OFFICIAL UFO. We wish to apologise for this, as this story is a fake. There was NO SECRET SAUCER FACTORY discovered in the USA, and likewise about saucer agents. I have now been informed from various sources, including BUFORA'S Lionel Beer, that they are now printing fake stories as truth. This magazine should be disregarded as factual. It is purely science-fiction. The early editions of OFFICIAL UFO were not so much in doubt as the recent 1977-1978 editions however. The readers are advised to be careful not to be taken in like we nearly were. We have however published a disclaimer in issue 18.

ALTERNATIVE 3

FORESIGHT magazine, edited by John and Judy Barham need information on Alternative three—they have found some new 'evidence' we hope. Any help would be welcomed. To: FORESIGHT-29 Beaufort Ave, Hodge Hill, Birmingham, B34 6AD.

LETTERS IN CNK (this issue etc) I regret I have no space to reproduce readers letters in this issue. I hope the above suggestion may well be welcomed.

ADVERTS: I regret also that space AND other factors has rendered the small ads. out of this issue of CNK also.

LAST ISSUE OF CNK:

THIS MAGAZINE WILL CEASE PUBLICATION on DECEMBER 31 1979 FOR REASONS STATED IN ISSUE NUMBER 18..

WE WISH TO THANK EVERYONE CONNECTED WITH US IN THE PAST FOR THEIR HELP, AND INDEED LOVE, TOWARDS THE CONTINUED SURVIVAL OF CNK. It is this aim to survive we, like a partial eclipse, are closing down for an unscheduled period. NO SUBSCRIPTIONS SHOULD BE SENT AFTER THIS DATE. We shall make any announcements in the future if this magazine is to resume publication. There will be an unscheduled amount of CNKs, approximately 4 per year, to 12 per the rest of 1979. THANKS to our foreign, overseas contacts also. - EDITOR

UFOLOGY 1978

## JOHN AND JUDY BARKLAM OF FORESIGHT

What seems almost a decade ago, John Barklam decided things weren't quite right on Earth, there was also those elusive UFOs to consider; so he brought out a small magazine called FORESIGHT with his wife, then Miss Tym. CNK will be covering the FORESIGHT story in another issue. Although we are not sure what stand the Barklams have on the UFO, we do know that they are truth seekers, and their magazine aims to get to the bottom of most mysteries as CNK does. I guess, this makes John and Judy a Ufologist also, and many a time has his magazine devoted pages to the enigma. At the moment they are concentrating on the Alternative 3 controversy, aiming to dig up some truths there too. We wish them all the success in their ventures in the future and here's to another decade of FORESIGHT.

## STEFANO GIUSTI-Italy

Stefano Giusti is a ufologist in Italy, currently producing a magazine called: NUOVE REALTA, ALL about the deeper side of the UFO. (in italian). Stefano says: "I'm 18 years old, and for three years have been reading reviews on UFOs. I am gathering article on UFOs not specialised. Sometimes I collaborate with Italian groups, exchanging articles by me and newspaper articles. I hope one day we will be able to communicate with the inhabitants of another planet, this will resolve the tormenting problem of 'are we the only creatures in the universe.'"

## ROY LAKE

Roy first became interested in UFOs in the 1950s when he sighted one over his home town of Dagenham, Essex. Since then he says: "my interest in this subject has had some remarkable results. First I became a member of the ill-fated I.S.T.R.G (UK), which held the first National UFO & Space Convention, at Woburn Abbey, in which I took part. My main interest got off the ground in 1969 after my first UFO sighting. 1970 was the year I formed my own UFO study group: "ESSEX UFO STUDY GROUP", which is still active. After seven years as chairman I resigned and left the group, hopefully to carry on with my own investigations in this subject. My next venture was the Dagenham Town Show (see next pages), with my old friend Barry King. The show which took place on July 8th was a great success." Roy told CNK that they hope to put on a display in Chelmsford Essex, next year (1979). I do hope any CNK readers who may be interested can get up there and ask Roy that question: "WHY DID YOU START?". This magazine, if produced on time will make any announcements as the event draws near, as to Dates etc. The BRITISH UNIDENTIFIED FLYING OBJECT RESEARCH ASSOC. forthcoming meetings for 1978-1979: KENSINGTON LIBRARY Campden Hill Road entrance, London W8. ## The Dagenham Town Show July 1978

Thousands of people attended the Town Show, put on by the folk of Dagenham Essex. Barry King writes that over 51,000 people attended it. He said it was a huge success. Also a success for his Paranormal research group, as many people crowded around the stall, on which was displayed everything you wish to know about UFOs and space research. They even had a metal plaque of the sending into space man and woman on the Jupiter probe. Many ordinary people who had seen UFOs were pouring out their stories to both Andy Collins and Barry King, while Roy Lake played the theme music under license of Close- encounters. Next year they hope to hold this same theme in Chelmsford Essex, during the Chelmsford Town Show. We wish them all the best. Editor, and by Barry M. King.

## 1978 U.F.O. SIGHTINGS

JAN 27th HARTELEPOOL MAIL via Stanley Greenwood:

● Mrs Peggy Race outside her home in Bruce Glasier Terrace, Shotton Colliery, points to where she saw the U.F.O. — with a little help from our artist.

Full story on page 29. Above Mrs. Peggy Race.

# **STRANGE OBJECT IN THE SKY**

SHOTTON Colliery might not be the most likely place for outer space invaders to land, but residents are becoming worried about bright hovering lights in the area which have been reported as unidentified flying objects.

And so far there has been no rational explanation for the flashing beacon which Mrs Peggy Race, of Bruce Glasier Terrace, Shotton, saw on Tuesday night.

About 6.15 p.m., her son Dean (11), spotted a strange light in the sky and called his mother to look at it. "On first sight it looked like the tail lights of a plane, but it wasn't moving and just seemed to hover to the south of Shotton," she said.

"It seemed to change colour and one minute it was blue, the next, green. I'm not suggesting it was a flying saucer, but it was definitely a strange object and the policeman we called out couldn't explain what it was either," Mrs Race added.

The object hovered in the sky for more than two hours, but when Dean looked later to see if it was still there, it had disappeared as mysteriously as it had appeared.

Apparently there have been several sightings of this mysterious light by other residents in the Shotton area, but Mrs Race is the first to have reported it.

## EXTRA UFO ITEM .....

Dear Sir,  
I thought you might like to know about a recent UFO sighting in this area. The story was only published in one of our three papers, but here's the account the Aylesbury and Wendover Times gave on 9th June this year:

The UFO was apparently sighted Sunday week from the stated date, in Wendover, a place just outside Aylesbury, Bucks. It was seen by a Londoner in his car at 5.45pm. He said: "It was silver, cigar-shaped. It stopped, remained stationary and then tilted at an angle of about 50 degrees before it became obscured"

# How we wonder what this is

MOTHER of three Mrs Susan Stovold was singing "Twinkle, twinkle little star" to three-year-old Dominic in the family car when she happened to look up into the clear night sky.

By Jack Hill

"U.F.O." — unidentified frightening object.

The faceless monster lurched towards them as they were driving down a lane at Kirkby. The driver later had an asthma attack.

The seven-foot creature with flashing lights started off a big police hunt. Last night Merseyside Police said: "We are treating the incident that the men were not intoxicated. It is an unexplained occurrence which could have been an elaborate practical joke or something more sinister."

One of the men, Steve Simpson, 21, said: "It was horrible—a square head and no features—and dressed in a sort of white asbestos suit."

"It had white boots, dark hands, and red and white flashing lights on its chest. It was just like something from a science

The U.F.O. had red and blue lights flashing around the rim.

"We counted about seven lights altogether and we could see a tank like turret on top."

"It looked big—about the size of an airliner as far as we could judge."

The Stovolds stopped their car to have a better look.

Mrs Stovold went on: "It remained up there above us for about 10 minutes and then began to glide away—not very quickly but steadily across the sky in a horizontal line."

Soon afterwards they reported the sighting to a police officer.

In the North, four men have told police

# JETS CHASE U.F.O

Although CNK billed this sighting-jet chase for 1978 we discovered it occurred on November 1st 1976 or so. As we have only just heard about it, here's the story taken from several sources including UFO NACHRICHTEN Germany:-

Teheran. Iranian authorities confirmed that two Phantom jets chased a flying saucer over the capital on Saturday. The two pilots reported that they were chased, in turn, by the mystery object. They took off, after Mehrabad civil airport controllers saw a round object emitting red, blue, and green light. The Teheran press quoted the pilots as saying they intercepted the saucer and it shot off at several times the speed of sound, only to return and pursue them. When the pilots tried to open fire on it, their electrical and radio communication systems were suddenly paralysed, they said. They described it as being half the size of the moon, as seen from Earth, but three times as bright. And also they saw a 15-foot circular object briefly leave the mother-ship to land south of Teheran. A search by helicopters found nothing.

In the Daily Express, Feb 24th 1978:

THERE was something glowing in the sky above the land of the Peacock Throne, too dazingly to be a planet, too steady to be a star. The duty officer at the Iranian Air Force called the Assistant Deputy Commissioner B.G. Yousefi. He made the decision to scramble the jets, from Shahrokhi Air Force base. At 1.30 a.m. the Phantom streaked away on its mission, heading north. The brilliant light was 70 miles away. In five minutes it was halfway there. Thirty miles to go. At that point all communications and instrumentation systems suddenly stopped working on the aircraft. The pilot decided to return to base. As he did so the instrumentation etc., returned. At 1.40 a.m. a second Phantom took off and flying considerably faster than sound headed for the UFO. It passed the point where the first aircraft had lost its electronics systems, but as it closed the object began to accelerate away. On the Phantom's radar it appeared to be the same size as a 707 passenger aircraft.

The chase was taking them south of Teheran and the Phantom, capable of twice the speed of sound was easily being outrun. SUDDENLY the UFO released a smaller, disc-shaped

object, which also glowed brilliantly. It came at the jet aircraft at great speed. Lt. Fafari's left hand moved to his weapons control panel. He pressed an AIM-9 air-to-air missile at the glowing disc hurtling at him. Nothing happened. The entire weapons control panel was not functioning. At the same time all electronics systems were lost. A total blackout. With no defences he put his plane into a diving turn to avoid the projectile, which followed him. When three-four miles distant the mini-UFO accelerated into the inside curve of the path taken by the Phantom, completed a turn and headed back to its "mother" ship.

As Lt. Fafari brought up his aircraft his instruments etc returned, and once more he headed for the object. Rapidly it moved away, then another object came away from the original craft. It fell-or dived-at great speed towards the Earth and he watched it go down and expected an explosion. But it appeared to come to rest gently in the hills below, casting a bright light over an area estimated to be two miles in diameter. His attention was taken from the original UFO which sped away and disappeared. The Phantom turned for base.

The Iran Government consulted America, filing a full report to the U.S.A., who promptly classified it.

CONFIDENTIAL 1235 SEPT 76.

This report forwards information concerning the sighting of an UFO in Iran on 19th September 1976. At about 1230 am on 19 sept 76 the xxxxxxxx received 4 telephone calls from citizens living in the Shehيران area of Tehran saying that they had seen strange objects in the sky. xxxxxxxx after he told the citizen it was only stars and had talked to Nehabad tower he decided to look for himself. He decided to scramble an F-4 from Shahrowhi AFB to investigate. End of quote. This lengthy data sheet goes on in depth as already seen. The xxxs represent deleted items on the Unclassified sheet. The crew were taken in daylight to the spot where they said object had landed, but found nothing. Yet west of the area a beeper signal was picked up, the strongest coming from a house with a garden. The occupants had indeed been frightened by a very bright light and loud noise. END OF CASE.

UFO SIGHTINGS FOR 1978 continued -not in strict date order:

YORKSHIRE EVENING PRESS(?) via Martin Dawson.

FLYING SAUCER OR FLYING ASH TRAY? April 14th.

A Yorkshire Evening Press photographer Garry Atkins On said there was a flying saucer hovering over the Viking Hotel. He rushed to tell a colleague who followed him onto the roof.

"He'd barely drawn breath before I was with him" says the newspaper. "Eyes rooted to the spot of a grey metallic craft silently starting to bank over the Ouse. "It can't be" we muttered. But it was. And to prove it we had one photograph seconds before it vanished back into cold air." Martin Dawson has contested this.

ONK will be publishing THIS saucer picture soon with more of the story. It could of course been a gag to fit in with the arrival of the film STAR WARS which was showing in York's Odeon cinema at the time.

APRIL 7th 1978: HEADLINES IN THE REVEILLE: UFOs- BRITAIN'S SECRET TRACKING STATION.

QUOTE: "A secret base has been established in Britain to track down UFOs. This astonishing claim was made by writer Ian Smith who had just returned to England from the USA where he investigated what he called a 'Watergate' style Cover-up on flying saucers.

SOMEWHERE in the north of England, British scientists are listening to strange sounds from space..and they think it is the noise of aliens on flying saucers talking to each other, a few miles above the Earth. Their results are linked to those of other stations throughout the west, under the Aero Space Defence Command. Any results collected are sent to the America's National Security Agency..which is even more secret than the CIA. Many scientists think the information collected already proves beyond doubt that UFOs exist. "The tracking stations lock on to a UFO, monitor a stream of signals from it on tape and then whisk it away under top security guard" said Dr. Stanton Friedman, a nuclear physicist. "Whatever Government departments might say to try to cloud the issue, they know aliens are here." And there is evidence a UFO once crashed on Earth. Metal from the flying saucer was examined by scientists at the AFRO organisation in the USA. It was like nothing found on Earth. It was ditched eventually after tests into the sea.

KAREN IVESON traces the path of the silvery disc she saw

PRETTY Karen Iveston and her 19-year old boy friend, Cliff Rowe, had parked their car to do some courting when the beam fell on them. Cliff, an apprentice technician said: "It shone across the back of the car."

Karen and Cliff were parked off a road near Parley Cross, Dorset.

"It was a lonely spot" Cliff said, "And not being able to see what caused the beam scared us a bit. We moved on."

They found out exactly where the beam came from as they drove along the road. PANIC

Karen, an 18-year-old tax officer, of Guernsey Road, Poole, Dorset, said: "A large, silvery disc-shaped object hovered

over a field, and a silver-green, cone-shaped beam shone down from the centre of it. We stopped to watch. It seemed to stay there for ages.

"Then suddenly, it veered off fast, and dropped behind some trees, much lower than any plane could go.

"We both panicked a bit afterwards. It was scaring, not knowing what on earth it was. It was like nothing I'd ever seen in my life.

"I BELIEVE IN UFOs. NOW I KNOW THERE MUST BE SOMETHING UP THERE."

Similar sightings like this have occurred world wide, but Dorset area not only had the above happen, but other UFOs were also seen. One was when a beam of light fell across the bonnet of Mrs. Pauline Fallus car, as she and a woman friend drove down a dark country lane.

Pauline said: "It came down four or five times, always in exactly the same place on the bonnet. It was as if the light was tracking us." (CNK: Or probing the inner workings of a combustion engine by probe beam-if that is what it is, and something we haven't got at the moment). "One minute there was nothing in the sky, the next, there it was" she said. "It looked like the underside of a dinner plate, and out of the centre came a silvery white light. The light was narrow at the top, widening as it touched the ground. It was a solid light, as if a line had been drawn around it.

"I'm not normally one to panic, but the pit of my stomach went ice cold. My friend was unnerved too."

The two women were near the Dorset village of Longham when the beam appeared. Odd things happened to Pauline's car after the sighting. Its petrol consumption shot up. And the engine cut out while she was driving, although the power returned when her husband took the wheel.

"I just wish someone could tell me where it came from and what it wants from us." This happened on the same night as the experience of Karen Iveson.

A very similar account of UFOs hovering above people was experienced by a young girl from Dagenham early this year. She was walking home to Maryate Road, where she lives, when she saw a HUGE green-coloured object peering down at her. This account will be treated in full at a later date, with her permission, (I hope-editor).

March 22 1978

A UFO, No doubt, say the Thomases.

THE Thomases are no longer in doubt. UFOs do exist. They have seen one. It appeared when the Thomases-Richard and Margaret-were driving down an unlit country lane near Coleshill, West Midlands. A bright whitish light headed straight for them from the sky. Then they saw the outline of a strange cigar-shaped craft. "Suddenly, it shot up into the sky, like lightning and disappeared," he said. It happened last weekend but they did not report it because "people would think it a joke".

April 3 1978: DAILY EXPRESS

SILVER MEN AND THE RAY THAT BURNED - By Jack Hill  
ETHEL FIED!S husband laughed when she told him she had seen a flying saucer.

it's not so funny now. Her hands are red and raw and the the skin is scaling off her palms.

Mrs Field. a 63 years old grandmother is convinced her hands were burnt when she shielded her eyes from the blinding white light of an "unidentified flying object". She swears she saw the oval-shaped object approach from the sea, as she walked up the garden path of her home at Seaview Road, Parkstone, near Bournemouth.

The lower half was enveloped in a bluish glow and two men in close-fitting silver suits with helmets like swimming caps were inside a dome at the top.

"The light from the dome was terribly bright." she said.  
"I held up my hands to shield my eyes and watched from between my fingers.

"I saw one of the occupants pointing down and I thought for a horrible moment it was going to land."

Bournemouth coastguard believe her. They saw it too.

FEB 22 1978 THE SUN:

A towering figure in a silver suit blocked the window of a lonely farm cottage. It was one in the morning. Pauline Coombes gave a gasp of terror, and tried to tell her husband Bill, but was struck speechless. Then it was realised the 7ft tall figure had no recognisable features. Only a box-shaped helmet framing a dark square, like a blank watch face. But as they telephoned for help it vanished. That was last spring. Recently 33-year old Mrs. Coombes, of Ripperton Farm, in Dyfed, Wales, had her second encounter with alien beings. After watching discs more beings were seen entering a door in a rock, which then vanished.

Date Unknown (1978) Newspaper unknown:

The display of flashing lights astonished Policeman Alan Craggs. For they were coming from a mystery object hovering high in the night sky. He gazed at it for 25 minutes. And his reaction was: "I didn't believe in unidentified flying objects before this—but now I have an open mind." His close-encounter with the "flying traffic lights" began with a call on Wednesday from school caretaker Peter Inwood. He reported something odd above his home near Farnham, Surrey. He investigated and said: "I must admit I didn't know what the thing was. It was moving erratically in a small cross shape. The colours kept changing in quick flashes—white, red, blue, to green, then back to white. I was in the RAF for two years and from my experience I don't think it was a plane or a balloon". Meanwhile Housewife Maureen Slater told how she and her 11-year old son had watched a golden cigar-shaped object hovering 200ft. close to their home in Hindle Close. It was flashing blue, green, and red lights. Later a woman reported that "a ball of light" had crashed and split in two in Ash-down Forest, near East Grinstead, Sussex.

DAILY EXPRESS 14th February 1978: KIDNAPPED-BY BLUE

ALIENS FROM A UFO. A terrified housewife told yesterday of her spectacular kidnap--by a UFO. Mrs. G--she will not reveal her full name for fear of ridicule--recounted the incident through CONTACT U.K. one of the largest groups studying UFOs. She was hanging up washing in the back garden, of her home, in Ermington, near Plymouth. Said Bernard Delair, member of Contact UK: "Mrs G became aware of a blue shining light moving towards her from the north." "Then the light hovered over the garden. I was petrified" she said. "I <sup>was</sup> completely enveloped by bubbles of light. I saw three beings who looked like men. They did not speak. They were about 5ft. tall, wearing bluish metallic-like clothing.

"They grasped me by the arms and we were lifted up a beam of light into a kind of room. There were more of the men there. "I was given the impression, that I would come to no harm. A little later, I found myself back on my lawn. I felt a sharp blow on the back of my neck. I was stunned but not hurt. When I looked around the thing set off at great speed and disappeared."

APRIL 12 1978 SOUTHERN ECHO:

"Echo" photographer snaps a strange object. (to be seen in a forthcoming issue)

(?) 1978: UFO RIDDLE OF VERA'S ENCOUNTER (source unknown) PEOPLE have been giving Mrs. Vera Bates looks and finding her story unbelievable. For she had an encounter of the first kind. That is-- she saw and heard a UFO, outside her home in Derbyshire Street, Bethnal Green, London.

Mrs. Bates a ward receptionist at a children's hospital said: "I was asleep but awoke with a start. A brilliant light was shining into the bedroom. There was a strange noise in the masonette. I got up, looked out and there was a golden ball hanging in the air outside the block of flats. It wasn't the moon. The colour was a fantastic gold-- I've never seen anything like it."

"I am convinced that what I saw was not of this world."

14 April 1978 HALIFAX EVENING COURIER:

SIX POLICEMEN ENCOUNTER 'GIANT FOOTBALL'

MAY 19th 1978 (date first heard of report) UFO 'ATTACKS' RUSSIAN CITY. A spectacular UFO shaped like a jellyfish as big as a football field, panicked a Russian city and beamed down fine golden streams of lights, that made holes in window panes and paving stones, according to hundreds of witnesses. This event is the first kind of any damage by a UFO ever made. (see next issue)

SUNDAY MIRROR June 11 1978: CHILDREN IN UFO PANIC

Eight terrified children ran home crying. They said a silver light "as big as a double decker bus" came towards them.

JUNE 30 1978 (Newspaper not known):

SITTINGBOURNE, Kent. Worm-shaped object changing colour at low altitude, arrives same time each night.

JULY 6th 1978. DUNMOW OBSERVER.

Strange glowing skies with weird noises by a Bishop's Stortford couple observed.

AUGUST 27 1978. SUNDAY MIRROR. CONCORDE IS 'SHADOWED BY' UFO: People living near the jet's flightpath claim it is being spied on by a UFO as it comes in to land. The UFO was described as a huge ball of coloured light--appears friendly.

September 5th 1978: HARTLEPOOL MAIL. Via S. Greenwood.

'LIGHTS IN THE SKY' MYSTERY. LIGHTS appeared in the skies over Hartlepool causing a stir among people in town. Two schoolboys reported seeing a long silver cigar-shaped object with a dome on top.

# THE CYCLES OF HEAVEN

Cosmic Forces  
and What they are Doing to You

by

Guy Lyon Playfair

and

Scott Hill

Every one of us, every minute of every day, is on the receiving end of the Cosmic Programme, the complex of invisible forces that link us, and every other living thing, with the Sun, the planets and the far-away stars.

To be subjected to cosmic forces, we do not have to be shot into space—we do not even have to leave our living rooms. Yet what these forces are and how exactly they affect us, is a mystery we are only beginning to unravel.
